

Billing

Good Payer Price Protection

IgLou's Good Payer program is designed to give you peace of mind that your monthly rate doesn't automatically rise after your first year of service. As long as payments are received by the due date on each monthly bill, you'll continue to receive the same rate as when you originally ordered your current service at your address. There's no catch, no new commitments required, just our way of saying thank you!

Note: If you change service, upgrade to fiber, or move service, your rate will then reset to the prevailing rate on your new order.
