

High Speed Internet

Change your Wi-Fi settings

To change the wireless settings in your your modem/gateway, please follow the [instructions on this webpage](#). Be sure to choose the model number of your modem from the drop-down box.

The above instructions will allow you to change any of the following:

- Enable or disable wifi
- Change the wireless network name or password
- Change the wireless network name for 2.4Ghz vs 5Ghz separately
- Change the wireless channel or frequency
- Other miscellaneous wifi settings

Unique solution ID: #1105
